

FEBRUARY 2010

In 2010 we've got products for you that seal, insulate, protect & repair

MOULDING'S & BONDING'S

MOULDINGS & BONDINGS

- Compression, Transfer & Injection Mouldings
- Wide polymer range - natural & synthetic
- Fabric reinforced diaphragms / seals
- Rubber / Metal Bondings
- Part moulded / part hand formed
- Replacements for obsolete / hard to find spares
- FREE Drawings service

SHEET PRODUCTS

- Largest Silicone stock range in Europe
- Safest Silicone Sheets:-
..... FDA/ BFR/ WRAS/ EU Approved
- Metal Detectable & Anti-Microbial
- Viton® / FKM - wide range
- Sponge Sheets - Silicone & Viton®
- Diaphragm & REAL Thin Gauge Sheets
- Cut Strips, Joints & Gaskets

SHEET PRODUCTS

VITON® ADHESIVES & SEALANTS

VITON® ADHESIVE & SEALANT

- 2 Part Viton® Adhesive
- Viton® Caulk Sealant
- Silicone Sealant / Adhesive
- Adhesive Backed Strips & Gaskets
- Pow-r Wrap

EXPANSION JOINTS & BELLOWS

- Flue Gas Expansion Joints
- Fabricated Vapour Seals
- Inflatable Seals & Products
- Compensators & Bellows
- Insulation Jackets & composite products
- Stock range Silicone Bellows
- Uni-Bellows Standard Bellows

EXPANSION JOINTS & BELLOWS

The big question

When can we next help you with your specialised rubber requirements or materials ????
Give us that opportunity & we are sure we can enhance your products; profit & company.

**POW-R WRAP - THERE ARE 1000'S OF DIFFERENT PIPES; DUCTS & HOSES
 BUT ONLY 1 PRODUCT THAT CAN REPAIR THEM ALL!!**

Whether your pipes are rubber, copper, steel, cement or plastic; fixing a leak is easy with Pow-r Wrap. There are hundreds of different pipes and hoses and Pow-r Wrap can repair them all!

Pow-r Wrap is supplied in a handy kit form and is:

- Very easy to use - simply wet the product and wrap it around the pipe; no tools are needed.
- Very quick to use - it sets hard in 30 minutes at 21°C and provides a permanent repair to any type of pipe or hose.
- Very safe – it is the only pipe repair product to meet EPA requirements for drinking water pipes.

Pow-r Wrap is water activated fibreglass tape which repairs almost any material and sets like steel. For more information on Pow-r Wrap, please ask for our datasheet — **POW-R WRAP** by J-Flex.

SO HOW BIG DO YOU WANT YOUR SHEET ?

J-FLEX Offer sheet materials up to a MASSIVE 2800mm wide!

Sheets 2800mm x 4500mm x 3mm thick produced in a high strength silicone grade destined for vacuum applications. The contract was won against severe competition and the J-Flex material out-performed leading multi-national rubber suppliers over extended life cycling tests.

J-Flex Wide Width Sheetings are also available in EPDM; Neoprene; Nitrile & Natural /SBR.

The shipment shown here was valued at £40,000 (€42,000) and forms part of a projected annual contract of £300,000 (€315,000).

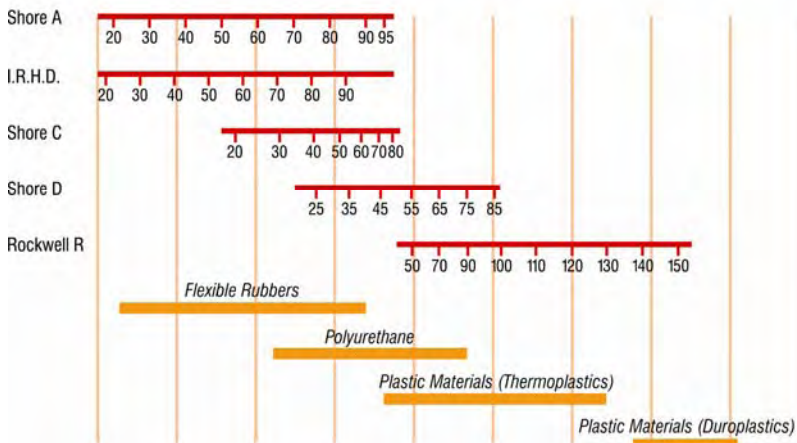

The photograph above shows part of a major contract undergoing final inspection at J-Flex.

ASK THE EXPERT HARDER OR SOFTER?!?!?

Comparative Relation of Hardness Scales

(rounded up approximate values)

Have you ever wondered about the various hardness scales quoted for Rubber Products?

Well if so The Expert has come up with a quick useful guide which shows the comparative hardness scales and we hope you find this useful.
